To whom it may concern,

I recently learned that the FCC is proposing to expand Low Power FM (LPFM) stations and allow them to take priority over current FM service. The K-LOVE radio station I listen to and support could be one of the stations affected by these proposed changes. K-LOVE has not only been a part of my family's lives, but it has also served my community for many years.

K-LOVE's family-friendly and wholesome programming has been a reliable and safe place on the radio for my family to tune into. The people in my community have lived and shared experiences and good music with each other. It was very discerning when I found out that what has become our way of life could be forced off the air.

Therefore, it is with great concern that I send my opinions and comments to request that you preserve the service that I have come to appreciate and expect. Thank you for your help.
